1) Hi,

Myself Amrit and I am working as a software developer since past three years in a well-reputed company. To improve my financial standards I am willing to immigrate to Canada for work. Later on, I got to know that I need a Canada Work Permit to work in the country. When I was searching a best visa consultancy, I found Opulentus. Then, immediately I have contacted [Opulentus](#) Overseas Careers and shared my interests. The visa counselors over there are so supportive and had guided me throughout the process. They have intimated me about what documents are required, how the process will be and how to present my interview. Finally, with their assistance I was granted with Canada Work Visa.

Thank you Opulentus! You have done a great job.
